

Attention: To Whom It May Concern,

I am writing in reference to the "New Braunfels Outer Loop Study". Recently we purchased eight acres with a fishing tank, and a house on the land. The address is 5606 FM 1044, and it is exactly five miles from IH-35. This place is very unique, and never would you be able to find a place, anything like it ever again around here. This place is our dream come true! We are going to build a house on the land, and my daughter's family will live in the house already existing on the land.

We have a mentally retarded son that will live with us on the place. He has to live out of the city because of his behavior. He cannot live to far, because the MHMR for the mentally handicapped will not come to pick him up.

We want to keep this place for many years to come. I also have grandsons that will grow up on this place, and are looking forward to going fishing very often on this place.

When you are studying to put the outer loop somewhere, please keep all this information in mind. My husband will be putting a lot of hours into this place, to make it even more of a unique place. This has always been his dream to have his own little farm. PLEASE!! PLEASE!! DO NOT TAKE OUR DREAM PLACE AWAY FROM US!! There has to be another alternative. Thank You from the bottom of my heart to consider another route.

If you need to get in touch with me, you can reach me at 210-279-0848.

Sincerely,

Terry & Linda Rapp,
