GENERAL COMMENTS

This is a complicated undertaking! The facilitators (Linda and Linda) did an excellent job of considering all points of view and incorporating intricate changes to documents accordingly.

Hopefully, everyone involved here (task force members, engineers, etc) can create common language definitions for terms such as agriculture, farmland, undeveloped, etc in a glossary first so we can bridge communication issues/gaps.

Finally, in my opinion the task force members are often speaking without enough expertise or knowledge to be dictating the policies.

Thanks for all the time & effort that went into this.

GENERAL COMMENTS

This has been a complete waste of time, money, resources, ... & paper!

The general consensus is that there is absolutely no need for this loop. New Braunfels residents DON'T WANT THIS and will not benefit at all from this - Quite the contrary - It destroys New Braunfels as a whole, and we, who love and cherish this town and community will forever suffer an enormous Loss! -

there is no other way to sugar-coat such an offense.
