WE HAVE WORK TO DO. After three months of Task Force Meetings we are still talking about procedures of how we are going to work. Nothing has been DONE and if the meetings are continued the same way Nothing will be DONE. A little Better after 7:30!

As in the last meeting, too much time spent on how and why we are to proceed with our task. We should get to work and deal with problems with procedure as or if they arise. Public attendance was low - probably bored by the first meeting. Half of this meeting time was wasted on junk!

In a group we are being asked to evaluate a process - not the actual LOOP concept - I sense a real frustration about this on part of some participants & our "public" guests - who finally, makes the decision to look at other options/alternatives to the LOOP concept? There might be more effective discussion if this was clarified?

Task force needs to stay on task to allow for public comment - so that we are not required to sit here after 8 o'clock.

Finish the housekeeping items so we can work.

Things were better this time, but still a bit
 redundant & cumbersome. Seems to be
 moving in a more positive direction
 will get there in June!

Seems like we get stuck on some of the items too long. Please let's get the meeting going and need to stick to the agenda. I don't let some people ask or take time to speak their piece. I probably can not make next meeting, June 15th. Sorry I have other meeting to make that day. I also wish that the citizen comments need to be short and to the point & not the family story and from the people from. CASE !!!

Task force members should be provided verbatim comments from interviews. These were recorded and this would be more transparent. Summary has each category ending with a positive spin and needs to be more complete. Transparency is paramount.

I felt that more information is being shared and becoming more organized in presentation of a lot of information. I still like to invite more official personnel who will clarify facts ~~to~~ to why the outer loop is necessary to build.

Prefer that we knock procedural & process issues in the head quickly and spend our time on substantive issues.

Prefer to understand plan for meeting our charge and how each area of study will be addressed by the task force.

It is my understanding that the material/ info presented at each meeting can be carried forward to another meeting as more info is presented. In other words, topics presented will not be closed after that meeting - but can be discussed again

When will we get to see the final report?
 The information presented tonight was very vague and not useful. When will we have access/be presented the detailed information such as the reports from the Technical and Community work groups, I want to read all of the details for myself.
