<b>C-20</b> Comment Card <ul style="list-style-type: none"> <li>Cheryl Fisher</li> </ul>	Wish we had done this from the beginning. I realize “all” this information is in print on a CD and online. However, in 40 minutes the panel as well as the audience knew or understood more than in the past 7 meetings. The majority of us may not understand engineering language but we aren’t ignorant of the overall facts at hand. The information needs to be explained just as Rudy did tonight. The people that attend these meetings deserve that much. Thank you, Rudy, for this presentation.
<b>C-21</b> Comment Card <ul style="list-style-type: none"> <li>Donna Jones</li> </ul>	Loved the new form of presentations. Thanks for letting us have the chance and time to look at all sections more in depth.
<b>C-22</b> Comment Card <ul style="list-style-type: none"> <li>Diane Scharnhorst</li> </ul>	My property was at first B-6 illegally changed to B23. I was not viable now I am recommended.
<b>C-23</b> Comment Card <ul style="list-style-type: none"> <li>Anonymous</li> </ul>	This idea is dated, think outside the box. I don’t understand how our city leaders are willing to risk our greatest asset. (They are not qualified)
<b>C-24</b> Comment Card <ul style="list-style-type: none"> <li>Anonymous</li> </ul>	It is too bad that we are short on time because the format was not clearly & precisely stated so that they would not have to be hashed and rehashed. This was a very helpful meeting and I am glad that all sections will be covered. It seems for a while that section B did not exist.
<b>C-25</b> Comment Card <ul style="list-style-type: none"> <li>Frank Dietz</li> </ul>	It is such a sadness growing in our community that SO MUCH TAX \$ has been expended & citizen T. F. good will expressed while no visit as to <u>why looping</u> is allowable. A good consultant process should be able to say: no to this scheme and show ALTERNATIVES.
<b>C-26</b>	If the first three meetings would have been conducted in this fashion with Rudy’s detail we would be

<p>Evaluation Form</p> <ul style="list-style-type: none"> <li>Kevin Lehmann</li> </ul>	<p>finished already and the public would have a lot higher opinion of TxDOT.</p>

Rudy did a great job explaining the process that was used to determine the different options. TxDOT made the right decision by adding extra time to allow the remaining sections to be reviewed.</p>

The first 35 minutes was just wasted. We need to stay on the agenda each month and if there is any questions, have it asked &amp; answered near the end of the meeting.</p> <p>The presentation from Mr. Rivera was very well done &amp; well spent. Would like to see it done on the other 5 sections. It explained the movement and the findings and well explained. I believe it answered a lot of questions. Keep up the good work TxDOT and RJ Rivera.</p> <p>Section C  Section D – make sure we have the least impacts on farmland  Section E “ “ “ “  Section F</p> <p>Make sure we go over each section and how the lines were made and or replaced to satisfy all questions asked at public meetings that were held.  Make sure that all cemeteries were marked and located properly.</p>
<p><b>C-37</b></p> <p>Evaluation Form</p> <ul style="list-style-type: none"> <li>• Dean Word</li> </ul>	<p>Rudy's beginning-to-end overview of the route evaluations was very informative and long over due. It explained the iterative process for evaluating segments and constraints which the consultants applied to all other segments. There will always be room to quibble about some of their decisions, but they had a list deliverables and a timeline to meet for study results. A number of people feel the "No-Build" option is the desired outcome. I do not share that opinion and I truly believe that there are far, far more people who support the outer loop concept than those who oppose it.</p>

<b>C-41</b> Comment Card <ul style="list-style-type: none"> <li>J McGlothlin</li> </ul>	It seems TxDOT and task force had different agenda/idea for what should be covered tonight.  Rudy did a fabulous presentation that answered how route choice was made. Same presentation should be considered for all sections.
